MUMBAI (TEL: 9322676819, 9773756991)

To.

The Board of Directors,

Firstsource Solutions Limited,

Mumbai

We have reviewed the attached balance sheet of **Firstsource Business Process Services LLC** ("the Company") as at March 31st, 2013 and the Profit & Loss account for the year ended on that date annexed there to. These financial statements are the responsibility of the Company's management. These financials are prepared to comply with requirements of section 212 of Companies Act, 1956.

We conducted our review in accordance with the Standard of Review Engagements (SRE) 2400, engagements to review Financial Statements issued by the Institute of Chartered Accountants of India. This standard requires that we plan and perform the review to obtain moderate assurance as to whether the financial statements are free of material misstatements. A review is limited primarily to inquiries of company personnel and analytical procedures applied to financial data and thus provide less assurance than an audit. We have not performed and audit and accordingly, we do not express an audit opinion.

In our opinion, and to the best of our information and according to the explanations given to us, the said financial statements read with the notes thereon are in conformity with the accounting principles generally accepted in India:

i) in the case of Balance sheet, of the state of affairs of the Company as at 31st March; 2013.

ii) in the case of the Profit & Loss account, of the loss of the Company for the year ended on that date.

Notes to the accounts

as at 31 March 2013

(Currency: In Indian rupees)

1 Background

Firstsource Business Process Services LLC ('the Company') was incorporated under the laws of the State of Delaware on November 25, 2009. The Company is a wholly owned subsidiary of Firstsource Group USA, Inc, incorporated in the state of Delaware, USA (who have the voting rights in the Company), which is a wholly owned subsidiary of Firstsource Solutions Ltd, a company incorporate in India. On December 31, 2009, FirstRing Inc, USA, an another subsidiary of Firstsource Solutions Ltd was merged with the Company.

2 Significant accounting policies

2.1 Basis of preparation

These financial statements of Firstsource Business Process Services, LLC have been prepared and presented under the historical cost convention on accrual basis of accounting and accounting principles generally accepted in India. The Balance Sheet and Statement of profit and loss of the Company have been drawn up in the country of its incorporation (United States of America) in the terms of United States of Dollar ('USD'). However, for the purpose of compliance with the requirements of Section 212 of the Companies Act 1956, amounts in these financial statements have been translated into Indian rupees at the closing rate on 31 March 2013 which is 1 USD = Rs 54.2850. No representation is made that USD amounts have been, could have been or could be converted into Indian rupees at such a rate.

2.2 Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles ('GAAP') in India requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosures of contingent liabilities on the date of the financial statements and reported amount of income and expenses for the year. Management believes that the estimates made in the preparation of financial statements are prudent and reasonable. Actual results could differ from those estimates. Any revision to accounting estimates is recognized prospectively in current and future periods.

2.3 Revenue recognition

Dividend income is recognized when the right to receive dividend is established.

Interest income is recognized using the time proportion method, based on the underlying interest rates.

Notes to the accounts

as at 31 March 2013

(Currency: In Indian rupees)

2 Significant accounting policies (Continued)

2.4 Fixed assets and depreciation

Fixed assets are stated at cost less accumulated depreciation. Cost includes freight, duties, taxes and incidental expenses related to acquisition and installation of the fixed assets. Depreciation on fixed assets is provided, using the straight line basis, pro rata to the period of use based on management's best estimate of useful lives of the assets (which are shorter than those prescribed under the Companies Act, 1956) as summarized below:

Asset	Useful life (in years)
Tangible	
Computers	3-4

Individual assets costing upto Rs. 5,000 are depreciated in full in the year of purchase.

2.5 Impairment of assets

a) Financial assets

The Company assesses at each balance sheet date whether there is any objective evidence that a financial asset or company of financial assets is impaired. If any such indication exists, the Company estimates the amount of impairment loss. The amount of loss for short-term receivables is measured as the difference between the assets carrying amount and undiscounted amount of future cash flows. Reduction, if any, is recognized in the statement of profit and loss. If at the balance sheet date there is any indication that a previously assessed impairment loss no longer exists, the recognized impairment loss is reversed, subject to maximum of initial carrying amount of the short-term receivable.

b) Non-financial assets

The Company assesses at each balance sheet date whether there is any indication that a non financial asset including goodwill may be impaired. If any such indication exists, the Company estimates the recoverable amount of the asset. If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognised in the statement of profit and loss. If at the balance sheet date there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount subject to a maximum of depreciated historical cost.

2.6 Foreign currency transactions

Transactions in foreign currency are recorded at the exchange rate prevailing on the date of the transaction. Net exchange gain or loss resulting in respect of foreign exchange transactions settled during the period is, recognized in the statement of profit and loss. Foreign currency denominated assets and liabilities other than fixed assets at year end are translated at the year end exchange rates and the resulting net gain or loss is recognized in Shele the statement of profit and loss. Non Monetary assets are carried at historical cost

Notes to the accounts

as at 31 March 2013

(Currency: In Indian rupees)

2 Significant accounting policies (Continued)

2.7 Taxation

Income-tax expense comprises current tax (i.e. amount of tax for the period determined in accordance with the income-tax law) and deferred tax charge or credit (reflecting the tax effects of timing differences between accounting income and taxable income for the year). The deferred tax charge or credit and the corresponding deferred tax liabilities or assets are recognized using the tax rates that have been enacted or substantively enacted by the balance sheet date. Deferred tax assets are recognized only to the extent there is reasonable certainty that the assets can be realized in future. The tax liability is computed on a consolidated basis and hence the tax liabilities for the company have been included in the financial statements of the parent company ie Firstsource Group USA Inc. Refunds if any received are recorded by the company itself since the tax pertaining to those years were paid by the company.

2.8 Provisions and Contingencies

The Company creates a provision when there is present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

Provisions are reviewed at each Balance Sheet date and adjusted to reflect the current best estimate. If it is no longer probable that the outflow of resources would be required to settle the obligation, the provision is reversed.

Contingent assets are not recognised in the financial statements. However, contingent assets are assessed continually and if it is virtually certain that an economic benefit will arise, the asset and related income are recognised in the period in which the change occurs.

Notes to the accounts

as at 31 March 2013

(Currency: In Indian rupees)

2 Significant accounting policies (Continued)

2.9 Leases

Operating lease

Lease rentals in respect of assets acquired under operating lease are charged off to the statement of profit and loss as incurred.

2.10 Retirement benefits

Contributions payable to the social security, medicare and other employee related contributions as required under the State of Delaware Law are charged to the statement of profit and loss.

2.11 Investments

Investments are classified into non-current investments and current investments. Investments which are intended to be held for one year or more are classified as non-current investments and investments which are intended to be held for less than one year are classified as current investments.

Non-current investments are carried at cost less other than any temporary diminution in value, determined separately for each investment.

Current investments are carried at lower of cost and fair value. The comparison of cost and fair value is done separately in respect of each category of investment. In case of investments in mutual funds, the net asset value of units declared by the mutual funds is considered as the fair value.
