NOTE-1 The Company has entered into a Distribution Franchise Agreement (DFA) on 14 March 2017 with Jodhpur Vidyut Vitran Nigam Limited (JdVVNL) and CFSC Limited for distribution of electricity in Bikaner City, situated in the state of Rajasthan. The Company is a public company and is incorporated under the provisions of the Companies Act applicable in India. The registered office of the Company is located at CFSC House, 1, Chowringhee Square, Kolkata - 700001

NOTE-2 The operations of the Company, are governed by the Electricity Act, 2003 and various Regulations and / or Policies framed thereunder by the appropriate authorities read with the aforesaid DFA. Accordingly, in preparing the financial statements the relevant provisions of the said Act, Regulations, DFA etc. have been duly considered.

NOTE-3 SIGNIFICANT ACCOUNTING POLICIES

These financial statements have been prepared to comply in all material aspects with Indian Accounting Standards ("Ind AS") notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) notified under Section 133 of the Companies Act, 2013 and other provisions of the Companies Act, 2013 and the regulations under the Electricity Act, 2003 to the extent applicable. A summary of important accounting policies which have been applied consistently are set out below.

(a) Basis of Accounting

The financial statements have been prepared on the historical cost convention except for certain financial assets and liabilities which are measured at fair value.

(b) Use of estimate

The preparation of financial statements in conformity with Ind AS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on a periodic basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

(c) Property, plant and equipment

i) Tangible Asset

Tangible Assets are stated at cost of acquisition together with any incidental expenses related to acquisition less accumulated depreciation and accumulated impairment loss, if any. An impairment loss is recognized, where applicable, when the carrying value of tangible assets of cash generating unit exceed its market value or value in use, whichever is higher.

Useful Life of Tangible Assets is as follows:

Particulars	Useful Life of Assets
Buildings and Structures	20-30 Years
Distribution System	15-25 Years
Furniture and Fittings	15-20 Years
Metering Equipment	15-25 Years
Office Equipment	6-20 Years
Plant, Machinery and Equipment	15-25 Years

ii) Intangible Asset

Intangible assets comprising computer software expected to provide future enduring economic benefits are stated at cost of acquisition / implementation / development less accumulated amortisation.

iii)

Amortisation

Cost of computer software related expenditure, are amortised as per RERC guidelines.

(d) Financial asset

The financial assets are classified in the following categories:

- 1) financial assets measured at amortised cost
- 2) financial assets measured at fair value through profit and loss.

The classification of financial assets depends on the Company's business model for managing financial assets and the contractual terms of the cash flow.

At initial recognition, the Company measures a financial asset at its fair value.

Financial assets measured at amortised cost

Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate method. The losses arising from impairment are recognised in the profit or loss.

Financial instruments measured at fair value through profit and loss

Financial instruments included within fair value through profit and loss category are measured initially as well as at each reporting period at fair value plus transaction costs as applicable. Fair value movements are recorded in statement of profit and loss.

Impairment of financial assets

The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For trade receivables the simplified approach of expected lifetime losses has been recognised from initial recognition of the receivables as required by Ind AS 109 Financial Instruments.

[Handwritten signature]

[Handwritten signature]

- (e) **Investments**
Investments (if any) in mutual funds are measured at fair value through profit and loss.
- (f) **Inventories**
Inventories are valued at lower of cost and net realizable value. Cost is calculated on weighted average basis and comprises expenditure incurred in the normal course of business in bringing such inventories to their location and condition. Obsolete, slow moving and defective inventories are identified at the time of physical verification of inventories and where necessary, adjustment is made for such items.
- (g) **Cash and cash equivalents**
Cash and cash equivalents in the balance sheet comprise cash at banks and on hand and term deposits. For the purpose of presentation in the Statement of Cash Flows, cash and cash equivalent includes cash, cheques and draft on hand, balances with banks which are unrestricted for withdrawal/usages and highly liquid financial investments that are readily convertible to known amount of cash which are subject to an insignificant risk of changes in value. Bank overdraft are shown within borrowing in current liabilities in the balance sheet.
- (h) **Financial liabilities**
Financial liabilities are measured at amortised cost using the effective interest method.
- (i) **Segment reporting**
Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker (CODM).
- (j) **Revenue from Operations**
Revenue from Operations include earning from sale of electricity and other operating income and is recognised following the revenue recognition principles as appropriate.
Earning from sale of electricity is net of discount for prompt payment of bills and do not include taxes and duties payable.
Other operating income represents income earned which are incidental to distribution of electricity, like meter rental etc., and are accounted on accrual basis. The contribution received from consumers in accordance with the Regulations which is being used for property, plant & equipment in order to connect the consumers to power distribution network are recognised as revenue when the service is performed.
- (k) **Other Income**
Income from investments and deposits etc. is accounted for on accrual basis inclusive of related tax deducted at source, where applicable. Interest income arising from financial assets is accounted for using amortised cost method
Late payment surcharge, as a general practice is determined and recognised on a receipt of overdue payment from consumers.
- (l) **Purchase of Electrical Energy**
Cost of electrical energy purchased represents power purchased from JdVVNL by the Company computed as per the methodology provided in the DFA.
- (m) **Employee Benefits**
Employee benefits include cost incurred on human resources deployed by the Company through direct employment, deputation from JdVVNL, secondment . The salaries and wages, contributions to Provident Fund and Contributory Pension Fund are accounted for on accrual basis. Provident Fund contributions are made to a fund administered through the office of the Regional Provident Fund Commissioner. The Company, as per its schemes, extend employee benefits current and/or post retirement, which are accounted for on accrual basis and includes actuarial valuation as at the Balance Sheet date in respect of gratuity and leave encashment to the extent applicable, made by independent actuary. Actuarial gain and losses are recognised in Other Comprehensive Income/ Profit & Loss account as the case may be.
- (n) **Finance Costs**
Finance Costs comprise interest expenses and other borrowing costs. Such Finance Costs is charged off to revenue. Interest expense arising from financial liabilities is accounted for in effective interest rate method.
- (o) **Taxes**
Current tax represents the amount payable based on computation of tax as per prevailing taxation laws under the Income Tax Act, 1961.
Provision for deferred taxation is made using liability method on temporary difference arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred tax asset is realised or the deferred tax liability is settled. Deferred Tax Assets are recognized subject to the consideration of prudence and are periodically reviewed to reassess realization thereof. Deferred Tax Liability or Asset will give rise to actual tax payable or recoverable at the time of reversal thereof.
Current and Deferred tax relating to items recognised outside profit or loss, that is either in other comprehensive income (OCI) or in equity, is recognised along with the related items
- (p) **Provisions and contingent liabilities**
Provisions are recognised when the Company has a present obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.
A disclosure for contingent liabilities is made when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources embodying economic benefits will be required to settle or a reliable estimate of the amount cannot be made.

[Handwritten signature]

[Handwritten signature]

(q) **INDAS 116 – Leases**

The Company's lease asset classes primarily consist of leases for land, buildings and plant and machinery. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs. The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

NOTE-3A Summary Of Significant Judgements And Assumptions

The preparation of financial statements requires the use of accounting estimates, judgements and assumptions which, by definition, will seldom equal the actual results. Management also needs to exercise judgement in applying the Company's accounting policies.

Estimates and judgements are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company and that are believed to be reasonable under the circumstances.

The areas involving critical estimates or judgements are :-

Estimated useful life of Intangible Assets -Note -3 (c) (ii)

Estimates used in Actuarial Valuation of Employee benefits -Note- 29B

NOTE-3B Changes In Existing IND AS

The Ministry of Corporate Affairs has notified Companies I Indian Accounting Standard) Amendment Rules 2022 dated March 23, 2022, to amend the following Ind AS which are effective from April 01,2022, but do not have any significant impact on the Standalone Financial Statements.

(i) Onerous Contracts - Costs of Fulfilling a Contract - Amendments to Ind AS 37

(ii) Reference to the Conceptual Framework - Amendments to Ind AS 103

(iii) Property, Plant and Equipment : Proceeds before Intended Use - Amendments to Ind AS 16

(iv) Ind AS 101 First time Adoption of Indian Accounting Standards - Subsidiary as a first-time adopter

(v) Ind AS 109 Financial Instruments - Fees in the "10 per cent" test for derecognition of financial liabilities

(vi) Ind AS 41 Agriculture - Taxation in fair value instruments

The Company has not early adopted any standards or amendments that have been issued but are not yet effective

29 B Employee Benefits

The Company makes contributions for provident fund and pension towards retirement benefit plans for eligible employees. Under the said plans, the Company is required to contribute a specified percentage of the employees' salaries to fund the benefits. Liabilities at the year-end for gratuity and leave encashment have been determined on the basis of actuarial valuation carried out by an independent actuary, based on the method prescribed in Ind AS 19 - "Employee Benefits" of the Companies (Indian Accounting Standards) Rules 2018

Corresponding service cost	7.97	7.78	6.44	6.81

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the balance sheet.

Mortality Rate

Mortality rates prior to retirement for the valuation as at 31 March 2023 were taken from the standard table – Indian Assured Lives Mortality (2012-14) ultimate. The same for the valuation as at 31 March 2022 were also taken from the same standard table – Indian Assured Lives Mortality (2012-14) ultimate.

Risks to which the plan exposes the entity i.e. the valuation results may go wrong:

Credit Risk: If the scheme is insured and fully funded on PUC basis there is a credit risk to the extent the insurer(s)/ are unable to discharge their obligations including failure to discharge in timely manner

Pay-as-you-go Risk: For unfunded schemes financial planning could be difficult as the benefits payable will directly affect the revenue and this could be widely fluctuating from year to year. Moreover there may be an opportunity cost of better investment returns affecting adversely the cost of the scheme.

Discount Rate risk: The Company is exposed to the risk of fall in discount rate. A fall in discount rate will eventually increase in the ultimate cost of providing the above benefit thereby increasing the value of the liability.

Liquidity Risk: This risk arises from the short term asset and liability cash-flow mismatch thereby causing the company being unable to pay the benefits as they fall due in the short term. Such a situation could be the result of holding large illiquid assets disregarding the results of cash-flow projections and cash outgo inflow mismatch. (Or it could be due to insufficient assets/cash)

Future Salary Increase Risk: The Scheme cost is very sensitive to the assumed future salary escalation rates for all final salary defined benefit Schemes. If actual future salary escalations are higher than that assumed in the valuation actual Scheme cost and hence the value of the liability will be higher than that estimated.

Demographic Risk: In the valuation of the liability certain demographic (mortality and attrition rates) assumptions are made. The Company is exposed to this risk to the extent of actual experience eventually being worse compared to the assumptions thereby causing an increase in the scheme cost.

Regulatory Risk: Gratuity Benefit must comply with the requirements of the Payment of Gratuity Act, 1972 (as amended up-to-date). There is a risk of change in the regulations requiring higher gratuity payments (e.g. raising the present ceiling of Rs.20,00,000, raising accrual rate from 15/26 etc.)

The above is a set of risk exposures relating to Gratuity Scheme in general. It is strongly advised that the Company should carefully examine the above list and add more risks if appropriate while preparing its financial disclosure statements

NOTE-31 Fair value measurements

a) The carrying value and fair value of financial instruments by categories as at the end of the year is as follows:

	31st March 2023			31st March 2022		
	Amortized cost	FVTOCI	FVTPL	Amortized cost	FVTOCI	FVTPL
Financial assets						
Trade Receivables	18,233.88	-	-	16,685.92	-	-
Cash and cash equivalents	76.38	-	-	247.67	-	-
Bank balances other than cash & cash equivalents	6,135.71	-	-	6,140.70	-	-
Others Financial Assets	5.28	-	-	5.88	-	-
Total financial assets	24,451.25	-	-	23,080.17	-	-
Financial liabilities						
Borrowings	8,157.94	-	-	6,405.85	-	-
Trade Payables	17,623.28	-	-	16,761.18	-	-
Other Financial Liabilities	242.64	-	-	191.98	-	-
Total financial liabilities	26,023.86	-	-	23,359.01	-	-

The different levels have been defined below:

Level 1: financial instruments measured using quoted price. The fair value of all equity instruments which are traded in the stock exchanges is valued using the closing price.

Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices)

Level 3: inputs for the asset or liability that are not based on observable market data.

b) The following methods and assumptions were used to estimate the fair values

i. The carrying amounts of trade receivables, trade payables, other bank balances, cash and cash equivalents, current borrowings are considered to be the same as their fair values, due to their short term nature.

ii. Security deposit on rented premises is based on discounted cash flows using a current borrowing rate.

iii. Fair value of financing instruments which is determined on the basis of discounted cash flow analysis, considering the nature, risk profile and other qualitative factor. The carrying amount will be reasonable approximation of the fair value

NOTE-32 For the year ended 31.03.2023, Others under Revenue from Operations include Rs 865.07 lakh being contribution from consumers related to such capital jobs which are completed within 31.03.2023

[Handwritten signatures]

Notes forming part of Financial Statements (Contd.)

NOTE- 33 Financial risk management

The Company's activities expose it to credit risk, liquidity risk, capital risk and market risk (including interest rate risk and currency risk). The Company's overall risk management strategy seeks to minimise adverse effects from the unpredictability of the financial markets on the Company's financial performance.

The Board of Directors is responsible for setting the objectives and underlying principles of financial risk management for the Company.

i) Credit risk

In order to manage credit risk arising from sale of electricity, multipronged approach is followed like precipitation of action against defaulting consumers, obtaining support of the administrative authority. The trade receivables are secured by the security deposits obtained and maintained by the Jodhpur Vidyut Vitran Nigam Limited from consumers.

ii) Liquidity risk

The Company manages its liquidity risk on financial liabilities by maintaining healthy working capital and liquid fund position keeping in view the maturity profile of its borrowings and other liabilities as disclosed in the respective notes.

iii) Market risk

a) Interest rate risk

The Company is exposed to interest rate risk because it borrows fund at both fixed and floating interest rates. The risk is managed by the Company by maintaining an appropriate mix between fixed and floating rate borrowing

b) Currency risk

The Company has no foreign currency risk exposure.

NOTE- 34 Capital Management

For the purposes of the Company's capital management, capital includes issued capital and all the other equity reserves. The primary objective of the Company's capital management is to maximize shareholder value. The Company manages its capital structure and makes adjustments in the light of changes in economic environment and the requirements of the financial covenants, if any.

The Company has not declared or paid any dividends during the year (Previous Year: Nil).

NOTE- 34 A Additional Information:

Additional Information:

- i) The Company does not have any Benami property, where any proceeding has been initiated or pending against the Company for holding any Benami property.
- ii) The Company does not have any transactions with companies struck off.
- iii) The Company does not has any charges or satisfaction which is yet to be registered with ROC beyond the statutory period
- iv) The Company has not traded or invested in Crypto currency or Virtual Currency during the financial year.
- v) The Company has not advanced or loaned or invested funds to any other person(s) or entity(ies), including foreign entities (Intermediaries) with the understanding that the Intermediary shall:
 - a. directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the company (Ultimate Beneficiaries) or
 - b. provide any guarantee, security or the like to or on behalf of the Ultimate Beneficiaries
- vi) The Company has not received any fund from any person(s) or entity(ies), including foreign entities (Funding Party) with the understanding (whether recorded in writing or otherwise) that the Company shall:
 - a. directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party (Ultimate Beneficiaries) or
 - b. provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries,
- vii) The Company has not any such transaction which is not recorded in the books of accounts that has been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (such as, search or survey or any other relevant provisions of the Income Tax Act, 1961
- viii) Since the Company does not have any subsidiary, compliance with the provisions of layers of subsidiaries under the Companies Act, 2013, read with Rules made thereunder, does not apply to the Company.
- ix) The Company is maintaining its books of accounts in electronic mode and these books of accounts are accessible in India at all times and the back-up of the books of accounts has been kept in servers physically located in India on a daily basis.
