Request for Selection (RfS) Document for setting up of 40 MW/80MWh Standalone Battery Energy Storage Systems in Kolkata under Tariff-Based Competitive Bidding

RfS No. ED(PM)/2025-26/266 dated 30.07.2025

Addendum-5   **Date: 17.09.2025**

KMZ File for CESC's BESS Project Site

BESS_PROJECT_KMZ_17.09.2025.kmz

Please download the KMZ file using the above link.

📌 **Instructions to Open and Use a KMZ File in Google Earth**

Option 1: Using Google Earth Pro (Desktop)

1. **Install Google Earth Pro**

   o Download from https://www.google.com/earth/versions/

   o Install and open the application.

2. **Open KMZ File**

   o Go to **File → Open**.

   o Select your .kmz file.

   o It will appear under **"Places"** in the left panel.

3. **Navigate & Use**

   o Expand folders inside the KMZ file to see placemarks, polygons, or paths.

   o Double-click items to zoom directly to them.

   o Use tools like **Ruler** (for measurements) or **Save Image** (to export views).

4. **Save for Future Use**

   o Drag the KMZ from **Temporary Places** to **My Places** to store it permanently.

Option 2: Using Google Earth Web (via Google Account)

1. **Open Google Earth Web**

   o Go to https://earth.google.com/web in Google Chrome (recommended).

- o   Sign in with your **Google account**.

2. **Import KMZ File**

   - o   Click on the **menu (≡)** in the top-left corner.

   - o   Select **Projects → New Project → Import KML file from computer**.

   - o   Browse and upload your .kmz file.

3. **View the Data**

   - o   The imported project will appear in the **Projects panel**.

   - o   Click to expand and view locations, layers, or paths.

   - o   Double-click any item to zoom to that location.

4. **Save in Google Drive (Optional)**

   - o   Instead of importing from computer, choose **Import from Google Drive** if the KMZ is stored in your Drive.

   - o   This keeps it synced to your Google account for access anywhere.
