Auction of 11 mineral blocks put on hold

Among the blocks put on hold, two are gold, one silver, one gold-nickel, three bauxite and one bauxite block.

PRESS TRUST OF INDIA
New Delhi, July 11

The government has put on hold the auction of 11 mineral blocks and alluvial alluvial gold and silver blocks, besides keeping in abeyance prospecting and mining activities. The blocks put on hold for auction are on Mahila Padam, while the mines kept in abeyance are situated in alluvial gold and silver blocks and three bauxite blocks. The mines were put on hold by the Union Ministry of Mines because the Mines Ministry did not specify the reasons for putting the sale of the blocks on hold and in abeyance.

Among the blocks put on hold for auction, two are gold, one silver, one gold-nickel, three bauxite and one bauxite block. Of the mines kept in abeyance, one is alluvial gold and silver blocks and three bauxite blocks. All 15 blocks were issued in January 2020, when the blocks were auctioned for the first time last month, while four more mines were auctioned in the second half of the month.

The Centre has recently turned down two new applications for resource identity to allocate some mining projects in the blocks with pre-embedded clarifications on allotment basis with a view to expediting the sale process as well as a re-examination of the blocks.

The ministry had previously released guidelines for the auction of the blocks with pre-embedded clarifications on allotment. The new block bids have the key issue of delays in the time limit for the auction process due to the requirement of forest and environment permissions.

The identified blocks would be auctioned along with other blocks put on hold. Under the guidelines, the Centre has asked states to set up an expert monitoring committee to oversee the entire process.

Finance minister Nirmala Sitharaman had also announced various structural reforms as part of the over 250 lakh crore stimulus package to boost growth and job creation.

The Centre had announced the auction of 500 blocks and introduction of a mechanism for competitive bidding in the mines sector in June.

Trail notifies new interconnection rules for fixed line networks

TELECOM REGULATORY TRAIL

New Delhi, July 11

The Trai, the telecom regulator, today notified changes to the telecom interconnection (Concessionaire Agreement) Regulations, 2018. The changes are aimed at ensuring clarity and convenience for the telephone operators for interconnection between service providers.

According to the changes, call blocking would not be required for terminating calls as per the existing rules. The new rules will also require the operators to install the required equipment within 10 days for the same.

The terminations will be limited to a maximum of 100,000 calls per day for the operators that are in violation of the new rules.

The new rules are aimed at ensuring a smoother and more efficient interconnection process for the operators, which will help in reducing the number of call blocking and other related issues.
